DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 32 is rejected under 35 U.S.C. 102(e) as being anticipated by Walance (6,215,854).

Consider claim 32, Walance teaches a method of identifying a telephone line, comprising the steps of: receiving at a central office dialing signals transmitted via a telephone line connected to the central office (col. 9 lines 23-24); in response to receiving said dialing signals, generating at said central office DTMF signals indicative of a telephone number which corresponds to said telephone line on which said dialing signals were transmitted (col. 9 lines 24-31); and transmitting on said telephone line said DTMF signals generated at said central office (col. 9 lines 24-31).

Allowable Subject Matter

3. Claims 28, 30, 33-34 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 28, 30, 32-34 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2614
